EDUCATION

2013 - 2017
BICOL UNIVERSITY
BS COMPUTER SCIENCE

- Member, Bicol University Computer Programming Team
- Member, Academic Consortium of Computer Science Students
- Participant, Ateneo de Naga Computer Programming Competition

OTHER SKILLS

- Highly critical thinker with effective researching skills
- Motivated to learn new programming skills
- Strong analytical skills
- Competent and takes initiative
- Can work under minimum supervision
- Flexible team player

2020 - 2022
Samsung Research & Development PH
SOFTWARE ENGINEER

- Develops front-end applications using React.js/Typescript using Storybook and Styled Components.
- Integrates RESTful API data in our frontend applications.
- Plan and analyzes project requirements needed for the project
- Perform peer code reviews and unit testing.
- Cooperates with the design team with regards the UI/UX guides of the project. Usually working on converting Figma to a pixel perfect project.

2019 - 2020
WTech Solutions
JR. FULLSTACK DEVELOPER
